

# Romantis Occasional Use

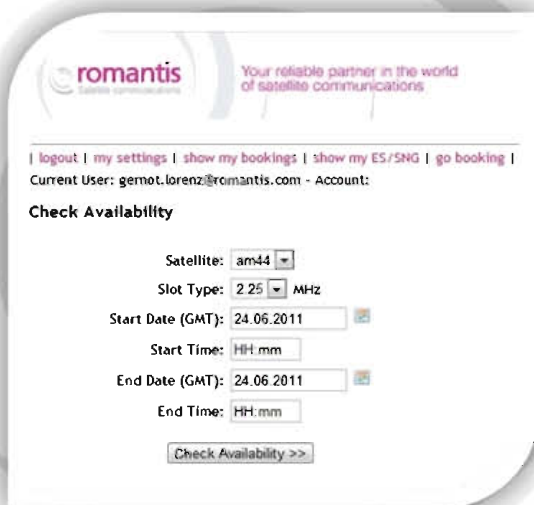

## Express AM44 @ 11° West

### Romantis OU booking system

Romantis launched its web.-based Occasional Use (OU) booking system in combination with Carrier-monitoring and –management system on July 1, 2011 for the first customers.

Romantis OU customers are able to book satellite capacity on two transponders of AM44 satellite with a slot size from 2.25 MHz up to 36 MHz's.

Booking is easy and can be performed via Web access: After provision of required parameters like bandwidth, date, start- and end-time, user will get information on bandwidth availability and will be able either to continue the booking process or to choose another time. If the data are correct, respective foreseen for operation antenna systems and SNGs have been tested, certified and are registered and all other mandatory fields are filled, user will get the booking confirmation in 3-5 minutes.

The screenshot shows the Romantis web interface with the following fields for checking availability:

- Satellite: am44
- Slot Type: 2.25 MHz
- Start Date (GMT): 24.06.2011
- Start Time: HH:mm
- End Date (GMT): 24.06.2011
- End Time: HH:mm
- Check Availability >>>

### EXPRESS-AM44 Key Benefits

- Newest satellite to serve EU&MENA markets
- Customized high-power spot beams
- Cross-connection between the European and the Middle Eastern beams
- Designed both for DTV and VSAT

### Resource management

Once the user completed the booking he will get a detailed screen information of his booking(s) as well as an automatic e-mail confirmation with all related data. Another e-mail is sent to the NOC of the satellite operator.

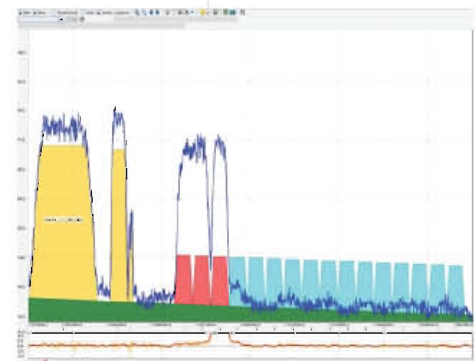

The screenshot shows the 'Booking Details of 26.08.2011-1' with the following information:

- Satellite: am44
- Start (GMT): 2011-08-26 00:00:00
- Slot Type: 2.25 MHz
- End (GMT): 2011-08-26 02:00:00
- Station: Austria
- Transmit EIRP: 100000 W
- Receiver EIRP: 100000 W
- Single Frequency: 1.47 - 1.50 Long / 1.00 City: Any City
- Destination: 1.48 - 1.50 Long / 1.00 City: Any City
- Audio: 4x11
- Service Rate: 1607
- Modulation: QAM
- 100 Contact Name: 6446
- SNG Contact Phone Number: 0043-1-8882222222

Users have the chance to reserve, book or also terminate with reasonable notice and all these bookings will be shown in internal resource management systems as the base for further inter-active bookings of users.

Furthermore the resource management system is based on current existing bookings setting respective masks in the Carrier Monitoring system and when users are going active the carrier Monitoring system is automatically checking, whether operated carriers are in accordance to bookings and will also fix the start- and end times and finally also generate billing data.

### Romantis at a Glance

Romantis Group is a Global provider of satellite capacity, hardware and support services, offering worldwide satellite communications via its subsidiaries and affiliates network. Our vision is to provide clients with high-quality customized communications packages based on the diversified range of satellite resources and innovative hardware products. Being a universal satellite capacity reseller Romantis leases full time satellite capacity directly from major space segment providers and enjoys well established relations with the North American, European and Russian satellite operators. Romantis operates transponders on seven satellites and offers flexible space segment lease options that include: long-term lease of capacities, occasional use and bandwidth sharing. Featuring the most advanced satellite technology for audio, video and data transmission services, Romantis brings together solid experience, impressive facilities and all the creativity needed for today's rapidly changing technology and marketplace.
